FUNCTION
Support and leveling equipment for bars. Although more focused on the squat, front or rear, it is also used for barbell raises above the head and chest. Contains a bar for lifting the body. Its differentiation is due to its storage, great for small or private spaces.

MAINTENANCE
The cleaning of magnesium and dirt must be carried out weekly, depending on its use (mainly on the pull up bar), focusing especially on the application of a lubricating and anti-rust liquid.

For end consumers of 2 years.

WARRANTY
For 1 year business consumers.

Warranty exclusion: When misuse is verified. When not properly cleaned and serviced as described in maintenance. We are not responsible when the laying surface does not meet the requirements for its normal operation.
