

SLED WHEELS

DIMENSIONS 1100 mm x 780 mm x 1080 mm

WEIGHT 62 kg

Composition: In steel. Finish in micro textured electrostatic powder painting. Polyethylene caps. Iron pins with chrome finish. Rubber tires.

Length of disc tubes: 240mm long and 49mm in diameter.

Color: Black. Other colors on request.

Components and features:

- FEATURES**
- With 4 handles coated with high density foam for pushing and pulling. Fixed on each side without having to rotate the equipment to switch to the opposite direction.
 - Two anchors for string placement or for wearing a vest.
 - Two pins for placing discs to increase weight.
 - Contains eight levels of wheel resistance to make the exercise difficult.
 - Fit for all types of surfaces.

FUNCTION Linear weight transport from one point to another with push and/or pull movements. Used in strength and conditioning training.

MAINTENANCE The cleaning of magnesium and dirt must be carried out weekly, depending on its use, focusing especially on the application of a lubricating and anti-rust liquid.

For end consumers: 2 years.

For business consumers: 1 year.

WARRANTY Warranty exclusion: When misuse is verified. When proper cleaning and maintenance is not carried out as described in the maintenance point.
